

CARSON TAHOE
— HEALTH —

Carson Tahoe Health Interim Visitation Policies effective March 18, 2020

In concert with national guidelines concerning the national health crisis, Carson Tahoe Health is limiting visitation at all CTH locations as follows:

- All visitors will be health screened, checked in, and badged.
- A laboring patient may be accompanied by two birth partners/visitors.
- A pediatric patient may be accompanied by one caregiver, or both parents/guardians.
- An incapacitated, disoriented, or confused patient may be accompanied by one caregiver.
- A critically ill patient may have only two immediate family visitors at a time.
- Children under the age of 12 will not be permitted to visit.

Some exceptions will be allowed for unique circumstances, at the discretion of facility leadership.

We have implemented a welcome triage area at all Carson Tahoe locations, staffed with nurses, to screen everyone entering the building. If signs of a respiratory illness are detected, the patient will immediately be presented a mask, isolated, and screened for COVID-19.

Thank you for your understanding and patience, as the safety of our patient, staff and community is our number one priority.
